Event: Community Health and Wellness Seminars
**Location: Riverside Convention Centre, Youth Hall, 55 Leopold St., Aitkenvale,
 Townsville**
Taylor's Topics:

- **Who Gets Sick & Who Gets Well?** How long you live, and how well you live, has a great deal to do with your immune system and the way in which it communicates

with your brain. In fact, what you don't know about your immune system can kill you! The daily operations of your brain and immune system are an ongoing 'star wars' type of process.

- 1:00 p.m.
Meet Your Amazing Immune System: learn about the science of Psychoneuroimmunology and how the organs of your immune system interact with the brain and the body.
- 2:00 p.m.
Brain-Immune Balance: learn what can result from hypo or hyper immune system function.
- 3:30 p.m.
Brain-Immune Friendly Lifestyle: learn 13 strategies to live a lifestyle that can strengthen functioning of the brain and body.
- 4:30 p.m.
Never Fear Cancer Again: learn what triggers the growth of new blood vessels to feed a tumor, how metastasis occurs, and the types of foods that have been found to have an impact on slowing the growth of tumors and metastasis.
